

Are you passionate about bioinformatics? Want to make a difference in the world of genetics? SmartGene is looking for a Scientific Customer Account Manager to join our team in Switzerland!

Key Responsibilities:

- Train clients and provide scientific guidance
- Configure and support cutting-edge bioinformatics tools
- Build lasting relationships with international customers

What We're Looking For:

- Master's or PhD degree in Biology/Bioinformatics (or similar relevant experience)
- Proficiency in sequencing technologies and molecular diagnostics
- Excellent communication skills in English & French (German is a plus!)

Why SmartGene?

Work at the forefront of biotech innovation with an established leader in the field. Be part of a growing team shaping the future of genetic data analysis with our cloud-based software solutions.
